PROFESSIONAL SUMMARY

Disciplined and performance-driven B.Tech Computer Science student with strong foundations in Data Structures, Algorithms, and Object-Oriented Programming. Proficient in C++ and Python, alongside hands-on experience building clean, responsive web projects using HTML, CSS, and JavaScript. Committed to writing optimized code, solving complex logic, and continuously expanding core software engineering skill sets.

TECHNICAL SKILLS

Languages:	C++, Python, JavaScript, HTML, CSS
Core CS:	Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Operating Systems
Database & Tools:	MySQL, Git, GitHub, VS Code
Problem Solving:	LeetCode, HackerRank (Time & Space Complexity Optimization)

PROJECTS

Resume Analyzer (Web Project) | HTML, CSS, JavaScript

- Developed a frontend web application that parses user inputs to review structural layouts and text alignments of resumes.
- Implemented the core assessment logic utilizing JavaScript to check content format and streamline user experience.
- Designed a clean, intuitive, and highly responsive user interface with semantic HTML and custom CSS layouts.

Portfolio Website | HTML, CSS, Responsive Design

- Designed and coded a clean, personal portfolio website to cleanly showcase development projects, technical skills, and milestones.
- Utilized responsive design principles including Flexbox and Media Queries to ensure fluid styling across desktop and mobile devices.
- Maintained clean, modular code codebases and utilized Git and GitHub for version control and remote asset hosting.

EDUCATION

B.Tech in Computer Science (Data Science)	Maharana Pratap Engineering College, Kanpur	2027 (Exp.)
Intermediate (ISC)	ISC Board	2023
High School (ICSE)	ICSE Board	2021

KEY STRENGTHS & PROBLEM SOLVING

- Data Structures & Algorithms:** Regular problem solver on platforms like LeetCode and HackerRank, focusing on structured data patterns.
- Object-Oriented Programming:** Practical knowledge of C++ OOP concepts like Inheritance and Encapsulation for writing modular, reusable code.
- Analytical Mindset:** Capable of analyzing raw problem statements and implementing efficient, structured programming approaches.
